WE solicit the attention of the Profession to

SPERMINE.

A chemically pure solution of a sterilized, vitalized extract, or alkaloid, a basic substance obtained from the fresh testicle juice of the Bull, brain, bone marrow and the glandular fabric of the reproductive organs, prepared under the most careful antiseptic precautions.

The indications for the use of the remedy are : when the administration of the most powerful vitalizing tonic and nerve stimulant is required —when a brain fertilizer and reconstructive are demanded, this remedy is of decided efficacy.

Properties and Uses.—Its use has a decided influence on the health, activity and longevity of the blood corpuscles, heightens all the vital functions, physical as well as mental, promotes a higher type of manhood, blends with and is intimately connected with the origin, existence and prolongation of life ; invaluable and never failing in hopeless impotency, lethargy and deficient erectile power.

DOSE : For all ordinary cases, one teaspoonful every four hours is sufficient ; for extraordinary cases, two teaspoonfuls as often.

PRICE, \$3.00 PER POUND.

+ **Chemically Pure Glycerite of Spermine from Testicular Juice.**—For a local application to the periphery of the sentient nerves in the corona glandis, with cap. Price, \$5 per drachm, net.

NEW YORK, JULY 18, 1891.

My dear Mr. Brewster:

I have just received your letter of the 17th inst. and am glad to hear that you are still interested in the study of the life history of the American Cuckoo. I have been thinking of writing you for some time, but have been so busy that I have not had time to do so. I am now in the middle of a new book on the life history of the American Cuckoo, and I am sure that you will find it very interesting. I have been very much interested in the study of the life history of the American Cuckoo, and I have been very much interested in the study of the life history of the American Cuckoo.
